Sun cream
As we are entering the summer months we kindly ask that you apply an all-day sun cream to your child before they come to school. To help with the hot weather your child can also bring a hat and you may want to pack an extra bottle of water as we will be spending a lot of time outside.

Topics we will cover
During the Summer term we will explore:

- Minibeasts
- Superheroes
- Healthy and Active
- Holidays
- Journeys and Transport

Literacy
In phonics we will continue to consolidate our sounds and using our oral blending to help us sound out words. We will have a big focus on letter formation for name writing this term. Please continue to reinforce the correct tripod pencil grips at home. Nursery love reading stories and we will continue to explore the common features of stories such as the main characters and their feelings as well as sequencing stories in the correct order.

Reading Graduate Books
A gentle reminder that we only change library books on a Friday. Please ensure your child returns their library books each Friday so they can select a new book to go home.

Mathematics
The class have gained huge confidence in their numbers from 1-5. We have been learning how to represent these numbers in a variety of different ways. This term we will continue to reinforce the recognition of corresponding numerals. There will also be a focus on estimating skills and reasoning, to encourage the children to make and explain their predictions about different quantities or measurements before they prove it. For shape we will explore 3D shapes, investigating whether they roll and begin to use specific language to describe their different properties.

Labels on Clothes
Please make sure that all of your child's uniform and spare clothes (including shoes) are labelled with their full names.

Dates for your Diary

Wednesday 23rd April - Play In A Day
Monday 5th May – May Bank Holiday – children off school
Wednesday 21st May – Nursery and Reception Stay and Share
